

Hey! I'm Fred, and I'm proud to be your Head Boy this year. I'm here to help and make sure everyone feels supported, so don't hesitate to reach out if you need anything!

I study Criminology, Art and English Language and hope to move onto university once I finish my studies at John Kyrle Sixth form. My role is to oversee our wonderful Student Leadership Team who have been working hard on improving not just the sixth form but the whole of John Kyrle. I want to study architecture in university as I've always had an eye for design, and I can't wait to combine that with my passion for understanding how the world works.

When I'm not in school, you'll probably find me with a drumstick in hand – I'm in a band and absolutely love playing music. Drumming is my thing, and I can't imagine life without it. If you ever want to talk music, I'm always up for it!

Looking ahead, I'm really excited about the future and what it holds, and I can't wait to take the next step towards my career in Architecture. In the meantime, I'm here to help my peers and make the most of every opportunity we have here at John Kyrle.

Hi, I'm Lily and I am proud to be part of John Kyrle's Student Leadership Team and Head of external charity and communications. My role is to ensure our school is well-connected to our community and support local charities through things such as dress-up days and sports tournaments. If you have any ideas of how to improve our connections or any ideas on how to support charities, please don't hesitate to contact me.

I have been at this school since year 7 and am now in year 13 thoroughly enjoying studying Maths, Spanish and Geography. Next year I hope to go onto university to study Human Geography as it has always been a passion of mine.

When I'm not in school, you'll either find playing sport or my clarinet! I'm part of Herefordshire Youth Concert Band as well as the school orchestra both of which I love performing in and being a part of. I am also a member of Ross Rowing club where you will find me 90% of the time – I love being on the river and around nature as well as racing all over the country. In school, I enjoying helping with the younger years in our Hive (Support Centre) and coaching netball after school.

I am so excited for this next year here at JKHS and all the opportunities I will have, if you ever need anything please don't hesitate to reach out! :)

Hi! I'm Yan and I'm head of Internal Sixth Form and community within the Student Leadership Team. My role is ensuring that sixth form is a welcoming and inclusive space for everyone. I also organise the rewards days, dress up days and tournaments. I'm passionate on making change and committed to listening to others ideas to make the short time at John Kyrle more enjoyable.

I've been at JKHS since year 7 and I take Textiles, Maths and Spanish as my three A Levels. I plan on going to University after year 13 to study fashion textiles, something that I've loved forever.

Emerging myself in others cultures is really important to me so outside of school I love to travel and try lots of new yummy foods! I always keep myself busy whether that's with work or with hobbies like running, playing tennis and listening to music.

Hiya – I'm Darcy and it's such a privilege to be your head girl here at JKHS this year. As head girl I want to make sure that every student across sixth form and the school feels supported, listened to, heard and valued.

I am currently studying drama, geography and biology (a very varied mix of a levels) and am hoping to go to university next year to study global development, in the future hopefully working in humanitarian aid and relief as this is a key area of interest for me and I just want to help others.

However, a key passion of mine from a very young age is drama and music. I am proud to be a part of Herefordshire youth concert band and our school orchestra and woodwind group. As well as this, I have been given the amazing opportunity to lead our school musical "sister act" in the spring. So, if you can't find me, I'm probably off somewhere in a music room, instrument in hand or practicing a monologue!

I'm super excited for all the opportunities and challenges that this school year will bring - if you ever need anything I'm here to help and don't hesitate to ask.

Hey everyone, I'm Freddie and I'm on the student leadership team here at John Kyrle. I'm always up for a chat and am eager to hear about anything we can do to improve and make your school experience the best it can be. We'd all love to hear what you have say!

My chosen subjects are Maths, Physics and History but I also did an EPQ which I would highly recommend as they are a great way of exploring a topic that you love, and you get an extra grade out of it! Once I finish my A-levels I hope to go on to study Aerospace engineering at university. My job on the student leadership team is to oversee all of the fundraisers and making sure that we have what we need to make all the great changes that you think of!

Ok, now a bit more about me. I love to spend my weekends rock climbing and when I'm not I'm working on my latest woodworking project. Despite my academic choice of subjects I like to think I'm quite a creative person, an aspect of myself that I hope to make good use of on the student leadership team here at John Kyrle.

As for future plans, I hope to work towards making sixth form and the school more enjoyable for all, whether its talking with the rest of the team to organise fun events or working alongside other departments in our school to bring more student expression to communal spaces. I look forward to hearing what you all have to say and for the future of John Kyrle

Hello, Thomas here! I am incredibly happy to be a member of this year's student leadership team, where we are working towards improving John Kyrle for everyone. My role works closely with each of the departments within the school - communicating students' wants and needs to improve students' working environment and experiences. Hence, I have the responsibility of developing the design of the sixth-form common room, silent study, and group study. I aim to support students' productivity and satisfaction in the sixth form. So please feel free to reach out to me and let me know what you think!

Since year 7 at John Kyrle, a lot has changed. Now, I study mathematics, physics and product design and hope to enrol in a degree-level apprenticeship after my A-levels. I have a growing passion for designing as well as engineering.

Outside of sixth form, I enjoy designing products and 3D printing. I am quite creative and hope to bring it into the leadership team. I also enjoy mountain biking in the Forest of Dean, so you could find me flying through the air, or in a tree; either way, I love staying active outside.

This year will be one to remember, especially with the opportunities and events we have planned. The leadership team are already working hard together to get things in motion. I wish everyone well on their journey through sixth form!
